ABOUT RSM HOMES

Whether you already own land and are looking for the right builder, want to create a home specifically designed around your family and lifestyle, or are searching for a completed home that is ready to move into, RSM Homes can help.

With over 10 years in the industry we not only have tenure but resilience which is a testament to our processes and quality of workmanship.

Our homes combine thoughtful layouts, contemporary design and carefully selected products and finishes to create homes that don't just look great on handover day, but are designed for everyday living.

RSM Homes is a Registered Master Builder, giving our clients the additional reassurance of the 10-Year Master Build Guarantee. We understand that building a home is one of the biggest investments you'll make, so our focus is on making the journey clear, approachable and enjoyable from the first conversation through to handing over the keys.

We're proudly based in the Waikato and understand the communities we build in. From Hamilton, Cambridge to Morrinsville and beyond, our goal is simple: build great homes, create a great building experience, and make getting into your new home a straightforward process.
